

# Action Plan

1. Attend your children’s school sex education “Parent Information Session”.
  - a. Ask questions:
    - Who will do the teach the class? Will there be quality control?
    - If I opt my child out of the program, what kind of work will he/she be required to complete?
    - Where do I get copies of the curriculum?
    - What is your school’s plan to protect students in bathrooms and dressing rooms?
2. Contact the school board and superintendent and tell them to repeal this new curriculum and re-instate the previous program, “Choose the Best Path”.

### High School Human Sexuality and Abstinence Education

Dear Parent/Guardian:

We are excited to inform you about our human sexuality and abstinence education program. *Big Decisions*<sup>TM</sup>, our new human sexuality and abstinence education program, was adopted and implemented in the 2008-2009 school year. The curriculum promotes a better understanding of the maturation process and encourages students to make healthy, personal decisions. The importance of communication between the parent and the students, abstinence as the preferred choice for teens and accurate information about contraception are among the many items your student will learn during this important curriculum. Our belief is that this important educational process is best when shared by the home and school. We hope that you will take advantage of the opportunity to review this important material at the parent information session held on your campus (information located below). If you will be unable to make the meeting, please know that you can visit our website at to obtain additional information about the program to include viewing the *Big Decisions*<sup>TM</sup> curriculum online.

Please complete the permission slip below, detach it, and send the form back to your student's health teacher. **A student will not be able to participate in this valuable program without your written permission slip.** If your student does not have written permission to participate in the program, alternate educational activities will be planned for the student. If you have any questions or concerns, please do not hesitate to contact your child's teacher. Their contact information is below.

Sincerely,

Rachel Naylor  
Director for Physical Education, Health & Athletics
