The love of husband and wife is the force that welds society together. -- John Chrysostom
As the family goes, so goes the nation and so goes the whole world in which we live. – John Paul II

The importance of the family for the life and well-being of society entails a particular responsibility for society to support and strengthen marriage and the family. Civil authority should consider it a grave duty to acknowledge the true nature of marriage and the family, to protect and foster them, to safeguard public morality, and promote domestic prosperity.

We cannot have long-term domestic prosperity without a solid foundation for society and we cannot have that good foundation without strong families.
